How To Use HXCQY-D150N Single Chamber Inflatable Working Life Jacket

Read the instructions before use:

- (1) Make sure the 33g CO2 air cylinder is tightly fitted.
- (2) Check every components before donning life jacket.
- (3) Wear it like a vest, make sure to fasten the front buckle, adjust the torso strap as tight and comfortably as possible.
- (4) **Automatic Activation:** Our single chamber inflatable working life jacket is equipped with an automatic inflation mechanism. When the life jacket comes into contact with water, the air chamber will automatically inflate.
- (5) **Manual Activation:** If the water-activation device is lost or not working, it can be manually activated using a pull cord.
- (6) When loss of buoyancy occurs, use the oral inflation tube to blow air into the air chamber.
- (7) Handwash after use in clean water with mild detergent.
- (8) Do not machine wash, dry clean or use any other cleaning solutions on the life jacket.
